INDEX TO VOLUMES 4-8

This journal was published under the title Journal of Institutional Management in Higher Education *up to Vol. 12, No. 2 when a new series under the title* Higher Education Management *began with Vol. 1, No. 1. The following section contains a list of all contributions published in Volumes 4/1992 to 8/1996. They have been listed under broad analytical headings denoting the main areas of interest within which they fall. It is interesting to note that there are now no contenders for places under the headings,* Planning of Reduction *and* European Integration and the European Community, *and that headings for* Continuing and Life-Long Education *and* Internationalisation and Regionalism *have become necessary. The analytic headings are as follows:*

A. *General Perspectives;*
B. *Government and National Systems;*
C. *Relations with the Environment and the Economy;*
D. *Planning, Resources and Finance;*
E. *Quality Assurance, Evaluation and Performance Indicators;*
F. *Internal Structures;*
G. *Staffing Policies and Training;*
H. *Research;*
I. *Continuing and Life-Long Education;*
J. *Teaching, Curriculum and Study Methods;*
K. *Science Parks;*
L. *Information Technology;*
M. *Internationalisation and Regionalism.*

Authors of contributions have also been listed alphabetically so that their work can be found under the different analytical categories. Titles are listed once only in the case of multiple authors.

IMHE News items are not included in this listing, and will continue to be shown in the annual index which appears in the last issue of each volume.

Where appropriate articles are abstracted and indexed in Current Index Journals in Education (ERIC).
